

oxy-gen[®]
POWERED

Continuous fragrance **guaranteed**

Effective fragrance odour control

All Oxy-Gen Powered® fragrance cartridges contain **neutra-lox**, our proprietary odour eliminating ingredient that is extremely effective against the smell of urine, faeces, body odour, tobacco, pet malodour, kitchen odour, mould, mildew and more.

Unlike other systems that only mask odours, Oxy-Gen Powered® cartridges eliminate odours and release fragrance effectively and continuously.

All cartridges contain

neutra-lox malodour eliminator

What is Neutra-Lox Malodour Eliminator?

When fragrance molecules are released, they diffuse into the air of the room. Proprietary Neutra-Lox odour neutraliser molecules eliminate competing malodour molecules, allowing the fresh scent molecules to spread out and fill the surroundings, where they linger in the air. It eliminates bad odours such as tobacco, kitchen odours, sweat, mildew, animal, body odours, and more.

Safe and sustainable

Carbon footprint approved, and 100% recyclable cartridges; choose Oxy-Gen Powered® for cleaner air and a cleaner earth.

With no added solvents, alcohols, CFCs, VOCs or propellants, our Oxy-Gen Powered® cartridges contain 100% pure fragrance oil and are a safe choice for any facility.

Cartridges are compliant with:

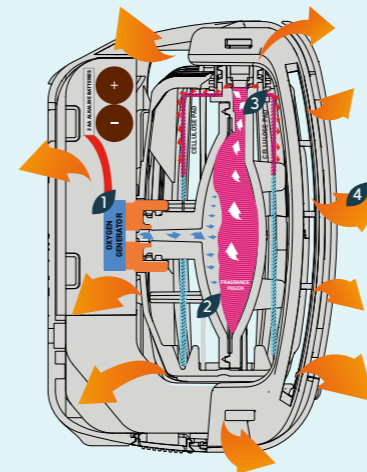

World's first Oxy-Gen Powered® technology

Oxy-Gen Powered® is the only technology that harnesses the power of pure oxygen to guarantee the delivery of fragrance into the air continuously, consistently and accurately for the entire duration of the cartridge life.

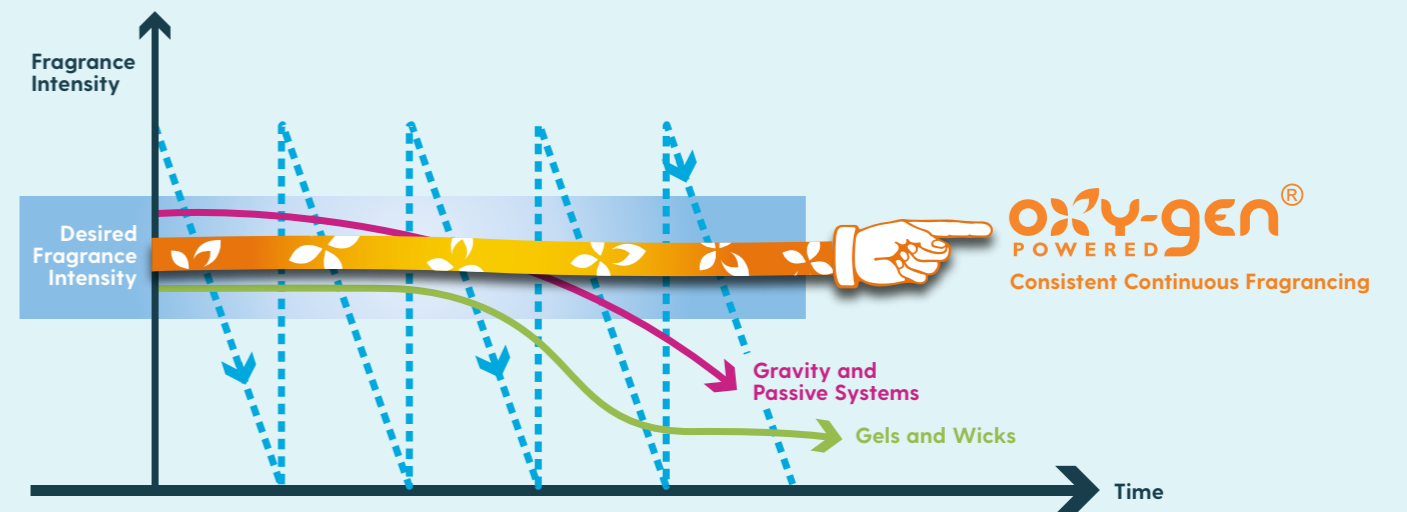

This innovative system is based on fuel cell technology that is used in the pharmaceutical industry to deliver drugs to human beings and animals.

Oxy-Gen Powered® technology is simple, reliable and cost-effective.

Technology at a glance

1. The oxygen generator continuously releases a precise dose of oxygen.
2. The oxygen squeezes the fragrance pouch, displacing the fragrance.
3. A continuous measured dose of fragrance is delivered onto the cellulose pad.
4. Pure fresh fragrance is released into the room.

Fragrance revolution

Continuous fresh scent and odour control. The VIVA!e air fragrance system fits easily into a maintenance schedule, with each refill lasting 60 days. Simple to install and refill.

Consistent fragrance levels guaranteed

VIVA!e is designed and engineered to deliver consistent and continuous levels of fragrance and odour control for the full life of each refill.

Unique Oxy-Gen Powered® technology delivers precise doses of intense scent with no variation on delivery or drying out. Low VOCs mean it is ideal for green buildings and LEED certification requirements, whilst its cartridge is 100% recyclable and safe to dispose of in your regular plastic recycling waste.

Strong
Secure
& Stylish

Designed for style and protection

Made of robust stainless steel with an anti-vandal locking device, SHIELD looks stylish in every setting without compromising security and effectiveness.

The dispenser's smooth contours mean that potential vandals are unable to grip and tamper with the system. SHIELD's unique ventilation design ensures maximum airflow so that fresh fragrance is carried into the room.

Rail Group Standard Approved

SHIELD fragrance system meets the requirements of Rail Group Standard GM/RT2130 Issue 4, EN 45545-2:2013 and BS 6853:1999.

VIVA!e and SHIELD

Continuous fragrance guaranteed for 60 days

All cartridges contain **neutra-lox** malodour eliminator

@VirginTrains Your train is smelling very fresh today. Like cherry blossom and citrus. 10/10 on aroma. Whole train, not just my carriage.

VIVA!e Dispenser

- Simple to install and refill - just twist and go.
- Operates on 2 AA alkaline batteries that last up to 2 years (batteries not included).
- Empty refills can be safely disposed of as plastic recycling.
- Fragrance oil is gradually dispersed, delivering a continuous and consistent fragrance intensity.
- The unique cellular diffuser will not dry out or become saturated too quickly.
- Silent operation.

Innovation in the air

Two Year Warranty on the dispensers

Clean

A crisp floral scent that sparkles like fresh clean cotton.

Adore

A sophisticated fragrance that combines fresh apple notes with amber and spices.

Crush

An exotic mix of pineapple, tropical fruits and coconut.

Glow

Juicy black cherries, with a hint of almond, plum, vanilla and cinnamon spice.

Tang

An intensely fruity perfume with hints of orange supported by warm spices.

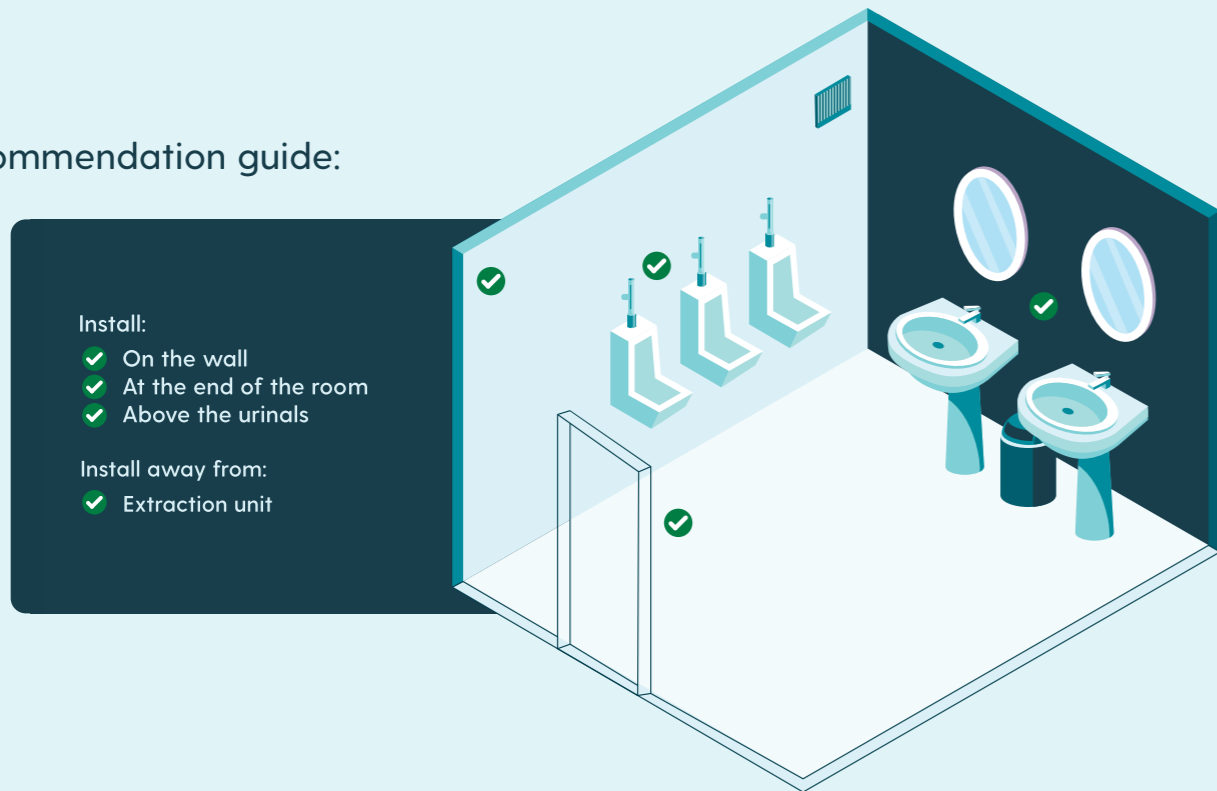

Spa

A fresh, invigorating scent with fragrant lavender and spicy herbs.

All cartridges contain **neutra-lox** malodour eliminator

Recommendation guide:

Install:

- ✓ On the wall
- ✓ At the end of the room
- ✓ Above the urinals

Install away from:

- ✓ Extraction unit

Continuous fragrance in men's restrooms

Highly effective malodour eliminator, Neutra-Lox, eliminates bad smells and keeps the urinal smelling fresh for up to 30 days.

Flexible and discreet design

The Fab30 has an innovative flexible design that can fit into any urinal. The unique design acts as a net to trap debris, keeping the drain clean. It significantly reduces the spread of germs throughout a facility.

Eliminates bad odours

The proprietary odour neutralising agent removes bad odours completely, instead of masking them. The Fab30 screens are impregnated with high-impact fragrances, for a fresh-smelling washroom.

All Fab30 screens contain **neutra-lox** malodour eliminator

Eliminates urine splash-back

Innovative mesh design with angled grooves eliminates splash-back and keeps the urinal area clean. This also reduces cleaning time.

Choose and match the fragrance of Fab30 with Oxy-Gen Powered® cartridges for a fresh smelling washroom.

Crush

An exotic mix of pineapple, tropical fruits and coconut

Spa

A fresh, invigorating scent with fragrant lavender and spicy herbs

Tang

An intensely fruity perfume with hints of orange supported by warm spices

Glow

Juicy black cherries, hints of almond and plum on a background of vanilla and cinnamon spice

All Fab30 fragrance screens are recyclable.
